## CHAMPAGNE

When listing our Champagnes, we have eschewed the traditional manner of listing non-vintage followed by vintage wines. Instead, we have chosen to note the varietal weight, the cellar master who crafted the wines and the villages from which the grapes have been sourced. Each cuvée also references the date when it was disgorged, to further showcase the nuance of the wines and offer different iterations of the same Champagnes. Where a Champagne does not come from a singular vintage (a 'Non-Vintage' wine) we have referenced the vintages that it is comprised by, or the base vintage which forms the majority blend.

## SPARKLING WINE

For a long time, Champagne stood firmly above the world's other sparkling wines in quality and prestige. Steadily, this is changing, with an emergence of exciting and experienced sparkling winemakers from across the globe, including our very own in Australia. In line with this development, we have taken the same approach as we do with our champagnes, listing as much detail as we can to honour the absolute craftsmanship that has gone into their production.

2002	Mount Pleasant Elizabeth Semillon <i>Stelvin Closure*</i>	<i>Hunter Valley</i>	293

*\*For decades, Australian winemakers have been proponents of more reliable methods of wine closure that aim to avoid unnecessary spoilage and premature development of the bottle's precious contents. This innovation has resulted in a global debate about the benefits of such closures. Here, we have listed the exact same wine, from Mount Pleasant's cellars, from a vintage where they were still experimenting with both cork and stelvin (screwcap) closures. We'd highly encourage the wines to be enjoyed side-by-side for maximum educational pleasure.*

## **WHITE WINE *Skin Contact***

Skin contact wines, often known as 'orange' or 'amber' wines, are made from white grapes that have been macerated on their skins. This process extracts not just colour from the skins of the grapes, but also imparts texture and flavour in the wine, resulting in an entirely unique style. These wines have a long and rich history, dating back thousands of years in Georgia and Armenia and have seen a modern revival in recent times, largely at the hands of a small group of cult winemakers in the Northeast of Italy. The technique has since been transported across the globe, where exciting producers in every corner of the winemaking world are experimenting with skin contact. Here, we present a humble offering of skin contact wines, in a variety of styles.
