CAPREOLUS DISTILLERY EAUX DE VIE

Set in the heart of the British Cotswolds, Barney Wilczak's cutting edge distillery is producing some of the world's most exquisite Eaux de Vie; distillates made exclusively from local fruit.

Various varieties are hand selected, pressed, naturally fermented and carefully distilled in a custom copper still before aging.

The result is an intense and pure expression of these fruits, often requiring hundreds of kilograms, an entire year's labour in the orchards being distilled into one tiny batch of unique and rare spirits.

COFFEE BY SINGLE O

10

Collider Blend

Many roasters around the globe have emulated the Mocha Java blend style, which has its origins in a 17th century chance 'collision' of the world's first two commercially exported coffee beans. Single O's version, Collider, juxtaposes bright berry with deep chocolate, using washed and natural process origins from three continents. The beans are sourced from Ethiopia, Brazil and Papua New Guinea.

AWOL Decaf

A couple of key things are indeed AWOL with this blend. It's 99.9% caffeine free. And the decaf process is chemical free. Swiss Water manage to make this happen while retaining exceptional taste.

Coffee prepared in your preferred style with the choice of full cream, skim, oat, soy or almond milk.

A handwritten signature in black ink, consisting of a series of connected loops and curves.
